The Nature Conservancy The mission of The Nature Conservancy is to conserve the lands and waters on which all life depends. Our vision is a world where the diversity of life thrives, and people act to conserve nature for its own sake and its ability to fulfill our needs and enrich our lives. Nature - Official Site Nature Briefing | 09 October 2018 Daily briefing: How to beat the academic job odds How to score a permanent research position, a hiccup on the Hubble, and a controversial peer-reviewed homeopathy study. Nature - Wikipedia Nature, in the broadest sense, is the natural, physical, or material world or universe. "Nature" can refer to the phenomena of the physical world, and also to life in general. The study of nature is a large, if not the only, part of science. Although humans are part of nature, human activity is often understood as a separate category from other natural phenomena.

The Nature Conservancy in New York The Nature Conservancy was born with the purchase of Mianus River Gorge Preserve in 1955 right here in New York. Since then, we have conserved more than 815,000 acres across the state. We continue to be a conservation leader and are proud to have been the first state program to establish programs to make our water cleaner, our oceans healthier and our cities thriving.
